HOMOSEXUALITY CAN BE CURED

Modern medicine sees deviation as physical problem—disputing old belief that homos are made—not born!

By ANTONY JAMES

HOMOSEXUALS are born, not made.

That's the startling new theory put forth by several American and European scientists who are seeking the answer to mankind's oldest riddle—the Third Sex.

The problem of homosexuality has long been considered psychological, rather than physical. Generations of psychologists, psychiatrists and physicians accepted Dr. Freud's view that homosexuals reflected "mirror images" of the dominant mother—withdrawn father pattern.

A JOURNEY TO THE PARANOID HEART OF THE 1950'S

The body of what is believed to be Jimmy Bremner was found about 11:00 a.m. today by highway 29 on Ridge Road.

The body was found a short distance from a fence. The head was severed from the body which was badly mangled. The body apparently had lain there for an extended period.

A small group of spectators assembled soon after the discovery. A police department photographer was shooting pictures of the scene this morning.

St. Louis City's greatest man search ended Tuesday night without uncovering a clue concerning the whereabouts of missing Jimmy Bremner, 8, who disappeared the evening of August 31. Russell H. White, assistant chief of police, said Wednesday. White said that nothing had been overlooked in the search

Homosexuality is not a mental illness, the American Psychiatric Association decided last week.

Hundreds Were Interviewed

Sex Crime Curbing

Sex offenders are psychopathic idlers, with inadequate personality to equip them to cope with the realities of life. Usually destitute of moral sense, they fall victim to their baser instincts, lacking the inhibitory or restraining influence which is concomitant with emotional and moral maturity.

The remedy lies in indeterminate sentences, on first offense, to a State institution for as much rehabilitation as is possible.
